EXPERIENCE

Contenda

Growth Operations | Feb 2021 to Jul 2021

Helped the startup grow to a \$10 million evaluation. Started as an intern and ended with a full-time job offer.

- Designed products for high-stakes customers (Streamers with 50k subs).
- Developed business strategy with CEO.
- Communicated insights from user research to steer company direction.

Phoenix Food Co-op

Web Specialist | May 2020 to Aug 2021

Designed and ran an ecommerce website to reduce food access inequality in AZ.

- Organized logistics of food delivery with local farms.
- Regularly sought feedback from users to improve experience.
- Collaborated with community to translate site into Spanish.

PROJECTS

Covid Testing Redesign | Nov 2021

Redesigned my college's Covid testing process.

- Empathized with students and medical staff through user interviews.
- Iterated with low-fidelity paper prototypes and a high-fidelity walkthrough in Figma.

Research on Usability of State Unemployment Sites | Feb 2022

Senior capstone project evaluating the usability of all 50 states' unemployment insurance websites.

- Usability testing and recommendations.
- Quantitative analysis and data visualization in Stata.

Overwatch 101 | Aug 2018 - Apr 2020

Designed and led a mentorship program that helps new students join an esports team.

- Regular membership of 8+ students for two years.
- 101 program has now grown into 3 other games.
